

AP-30 MKIII

AND
A&D Mercury Pty. Ltd.

Australia's Preferred Postal Scale

Operator Display & Controls

Features:

- **Dual range operation :**
Maximum accuracy when weighing letters and parcels
- **Dual Liquid Crystal Displays :**
Both operator and customer can see the weight
- **Triple Data Outlets :**
Weight transfer to up to 2 EPOS stations and 1 remote display
- **Automatic weight transmission :**
When weight is stable the data is automatically sent to the EPOS station
- **Large character displays :**
Easy to read by operator and customer
- **Fully approved by NSC :**
Allows the scale to be used for calculating postage charges
- **Low Profile & small footprint :**
Saves on the required bench space for efficient operation
- **AC mains or battery power :**
Allows use of the scale in areas where the power supply is not reliable

Capacities: 2000g x 1g
30kg x .01kg
